

Intensive Language Programs

The Intensive Language Program is a six-week program for students with the Intermediate Levels of English Language and Pidgin proficiencies. The courses are scheduled from June through July to August 2019. The English Language courses are designed to specifically enable learners, especially Francophone Cameroonians (both students and professionals), improve their skills with the opportunity to practice with experienced speakers. Pidgin is a significant language in Cameroon spoken by over 50 per cent of the country's population. As a lingua franca, foreigners, researchers as well as Cameroonians are progressively showing more interest in learning the language in order to interact successfully with the local population. The courses follow the structure of the university's regular intensive courses, and can be taken individually or combined for an extended program. In addition to class work, students will explore cultural sights, mix with local people and make long lasting friendships.
