JICA Knowledge Co-Creation Program (Long-Term)

General Information for All Applicants on

**A: Master's Degree and Internship Program of
African Business Education Initiative for Youth**

and

B: SDGs Global Leader

FY2021

This information pertains to one of the Japan International Cooperation Agency (JICA)'s Knowledge Co-Creation Program (Long-Term). This program will be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between both governments.

Each country may have its own schedule and/or qualifications for the program. The additional information is listed on the separated paper.

1. Background

At the 5th Tokyo International Conference on African Development (TICAD V), held in Yokohama in 2013, Prime Minister Abe announced the “African Business Education Initiative for Youth” (hereafter referred to as the “ABE Initiative”). This is a strategic five-year plan providing 1,000 youths in Africa with opportunities to study at Japanese universities as well as to do internships at Japanese enterprises. ABE Initiative builds on the concept that there is a need for human resource development in both private and public sectors of Africa through cultivating strong human network between Japan and Africa. At TICAD VI held in Nairobi in 2016, Prime Minister Abe reiterated the Initiative. At the TICAD 7 held in Yokohama in 2019, “ABE initiative 3.0” was announced which would invite 3,000 African youths to Japan over the next 6 years.

More than 1,200 participants from all the 54 countries have ever joined the program since 2014, and over 950 participants have completed. This has resulted in establishing a wide range of human resource network of ABE Initiative participants. Furthermore, many Japanese companies and ABE Initiative participants have collaborated in various ways to promote private sectors development in Africa.

In addition, there are still many challenges to achieve “Sustainable Development Goals (SDGs)” in Africa. It is thus vital to develop human resources that contribute to tackling the challenges in the respective fields through policy decision and implementation. JICA established a new long-term training program from JFY 2019 to foster young/middle bureaucrats, academicians and leading human resources in various fields of target countries who will make influence on policy making processes of their countries or will contribute to socioeconomic development in near future.

Hence, JICA provides two (2) programs: A: Master’s Degree and Internship Program of African Business Education Initiative for Youth and B: SDGs Global Leader.
